Want Recruits for the United States Army.

THE Government has decided to advertise for recruits through the papers instead of by bill posting, as in the past. This should be proof conclusive that Uncle Sam recognizes the newspaper as the only effective and legitimate advertising medium in America. The bill board idea is rather original with us and is the laughing stock of people from abroad who note the glaring extremes to which it is carried. It is both unsightly and irresponsible, whereas newspaper advertising is vouched for by the reputations of the publishers and is on the whole very readable.

The change made by the Government seems a subtle acknowledgment of the condition of our recruiting stations and the disinclination or lack of interest on the part of young Americans to enter the ranks. It may be that the Government wants to call the attention of young men of quality to the career of the patriot, for it is a well-known fact that those who enlist in times of peace are not the strenuous, ambitious men of our country, but the indolent soldier of fortune who takes a chance at army life rather than plunge into the commercial whirl of the civilian.

The discipline of a soldier's life is supposed to keep many an individual in the straight path, who on the outside would go wrong. There is a fallacy in the idea, for it is more reasonable to suppose that commercial striving and the struggle for existence on the outside should result in regular living. The cut and dried regulations of the army compels it. Enforced virtue is a poor attribute.

Whether the newspapers can supply a better class of recruits remains to be seen, but the publishers are confident enough that their readers are of a higher caste than the bill board gazers. Wherefore the Government should profit.

MADERA club women have succeeded in getting the avenue to the cemetery of that town widened. No doubt the up-to-date ladies want to give all "dead ones" plenty of room to get out.

BOOKER T. WASHINGTON declares he is often taken for a porter while traveling on trains. We trust he appreciates the compliment for the porter is the wisest money-getting negro that exists.

The banquet to be given at the Fairmount Hotel in San Francisco on the 18th of April will be something akin to a Thanksgiving dinner—so glad the earthquake is a thing of the past.

VIOLATED ordinances would prove good picking for investigating and improvement-loving clubs. They would be clubs over the heads of city officials.

Behler Slough Opened
For Navigation.

Behler slough, a tributary of Steamboat slough, on the east side of the railway track of the Northwestern Pacific railroad between Fairville and Sears' Point has been dredged out by the dredger Nevada and will now be navigated by a stern-wheel steamer, which will be used in towing barges loaded with crushed rock from Sears' Point to San Francisco. A. W. Foster, late president of the California Northwestern railway, has opened up a big quarry at Sears' Point and installed a rock-crushing plant and other machinery. The enterprise will give employment to between fifty and one hundred men, one-half of whom are already on the ground. The rock for the most part will be towed to San Francisco on barges which will be loaded from a spur track leading to and from the quarry. Much of the product of the quarries will also be shipped over the Northwestern Pacific railroad as the barge service will be inadequate to handle the entire output of the quarries.

Has Changed Hands.

The J. V. Miner ranch near Glen Ellen changed hands this week. The new owner is Robert P. Hill of Eldridge, who purchased the place on speculation. The Miners will go East where they will make their future home.

School Trustee Election. Last Week.

At the school election held in Sonoma on Friday afternoon of last week Robt. A. Poppe was re-elected a trustee of the Sonoma Valley Union Hill school without opposition. He received 135 votes.

In the contest of trustee of the Sonoma Grammar school Carl Dresel was elected. He received 95 votes. Thomas Brown, his opponent, received 50 votes. The latter and his friends made no effort to secure votes and contented themselves by simply going to the polls and casting a ballot. The supporters of Mr. Dresel, on the contrary, anticipating a hard fight, were out with rigs and did all kinds of electioneering. The new Trustee, Mr. Dresel, is an old resident of Sonoma and will no doubt take much interest in the school.

PLANS FOR COURT HOUSE MODIFIED.

Board of Supervisors Will
Now Advertise for a New
Lot of Bids.

At a meeting of the Board of Supervisors, held last Wednesday, the new Court House plans were modified so as to bring the cost down to something near \$280,000, the amount of bonds authorized for its construction. County Clerk Wright was instructed to advertise for new bids, the same to be received up to May 10th.

Architect J. W. Dooliver was present to explain matters to the Supervisors at the Wednesday meeting. Among other things the Supervisors determined to adopt the metal finish for the interior of the new building, thus eliminating oak or pine finish as proposed in the bids that were received and rejected last week. For the exterior bids will be asked on reinforced concrete, with cement facing and reinforced concrete and terra cotta facing.

Aside from the changes named and the elimination of some of the marble and other embellishments the building will be like the original one proposed and will be an attractive structure. The Supervisors hope that the next set of bids will be entirely satisfactory, and for the information of contractors it is stated that plans and specifications are filed in the County Clerk's office and are also on file in the offices of Architect Dooliver in the Atlas building in San Francisco.

Resulted in a Draw.

The six-round boxing contest in this place last Saturday night between "Jack O'Brien" of El Verano and "Al Baker" of Sonoma resulted in a draw. The scrap was a lively one from start to finish and much gore was spilled but there was no knock-out.

Increase in Salaries.

Beginning with the first of the present month the brakemen on the Northwestern Pacific railroad received an increase in salary of ten dollars per month, and three conductors, Messrs. Johnson, Crawford and Perry, received increases amounting to twenty dollars each per month. In a short time a new schedule will go into effect that will give the trainmen of the principal passenger runs greater time to themselves. The system is known as the "chain gang" but is decidedly acceptable to them. The crews will not have charge of a certain train, as they do now, but will depart on alternate days in the mornings and afternoons on their trips.—Santa Rosa Republican.

CAPT. J. P. HAUTO DROWNED IN SONOMA CREEK.

Meets Death in a Lonely
and Mysterious Manner
—Result of Inquest.

This community was shocked last Tuesday afternoon when it became known that Capt. J. P. Hauto of Embarcadero had been drowned in Sonoma creek, near the Jones ranch. No one witnessed the drowning and just how he met his death will never be known.

It appears that his schooner the "Four Sisters" became grounded on a sand bar about a mile from Lower Landing, where he resided with his family. His mate, Capt. Jack Wilson, and the balance of the crew left him alone on the boat Monday afternoon and this was the last seen of him alive.

Failing to make his appearance at the landing Capt. Wilson repaired to the schooner on Tuesday morning, but Capt. Hauto was nowhere to be seen. His hat and pipe, however, were found on the deck, and an examination of the boat revealed blood stains on an iron bar projecting from its sides. There was then no doubt in the mate's mind that something dreadful had happened to his captain. Returning to the Hauto home he repeated his fears and a search party composed of Jos. Keechler and others was organized to search for the remains. The creek was gone over with grappling hooks all forenoon without success. In the afternoon, however, when the tide went out, the body was found a few hundred feet below the schooner. There were several contused wounds on the head, evidently made by striking a piece of iron on the side of the boat as the deceased pitched head foremost into the creek from the deck. The captain was an excellent swimmer, but the injury to his head goes to prove that he was rendered unconscious before he struck the water and was unable to help himself.

The remains were brought into town by Deputy Sheriff Ryan late Tuesday evening and an inquest was held the following day, a verdict of accidental drowning being rendered.

An inquest on the remains was held here Wednesday by acting coroner J. B. Small. A number of witnesses were examined and for the most part their testimony showed that Capt. Hauto had come to his death as narrated above. Dr. Thompson, who examined the remains, testified that there was a compound fracture of the skull besides other wounds on the head, made presumably by his head coming in contact with a heavy iron bar when he pitched head foremost off his boat. This, of course, can only be surmised, because so far as the evidence went to show, no human eye saw Captain Hauto go to his death. The verdict of the jury was that the deceased came to his death accidentally. He was a native of Hanover, Germany, and aged 55 years.

Capt. Hauto had been engaged in the schooner service between Embarcadero and San Francisco for twenty-five years and was well known in shipping circles in the metropolis.

The sad feature of his lonely death is that he leaves a wife and nine children to battle with the world, all being girls except two.

The funeral took place Thursday afternoon from Bates' undertaking parlors, the remains being interred in Mountain Cemetery.

The weather the past week has been warm and pleasant and vegetation of every kind is growing rapidly under the genial rays of the sun.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the blood is in proper condition. For every constitutional ailment, such as scurvy, rickets, or any other blood disease, Ayer's Sarsaparilla is the only remedy.

Ashes to Repose in Mountain View Cemetery.

The ashes of Mrs. Marie Haubert, widow of the late Jacob Haubert and mother of A. J. Haubert and Mrs. Andrew Smith of San Francisco, who recently died and was cremated in that city, will be deposited in the Haubert burial plot in Mountain Cemetery tomorrow at one o'clock.

Mrs. Haubert was one of the pioneer mothers of the Sonoma valley and for many years lived on her farm "The Bella Vista," between this place and Napa. She took up her residence in San Francisco after the death of her husband and later on was followed by her son A. J. Haubert and his wife, who for years dispensed hospitality with a lavish hand at the home farm.

CITY OF SONOMA HAS TROUBLES, TOO.

Sued by a San Francisco
Firm for \$875 Worth
of Tiling and \$625
Damages.

Sonoma is in trouble. It has been sued by the Steiger Terra Cotta Company of San Francisco to recover the sum of \$875, value of tiling, cement and other material which were shipped to this place to be used in the construction of the new City Hall, now in course of erection by contractor J. B. Newman, who is also made a defendant in the suit.

The material was shipped to former contractor John T. MacQuiddy, who abandoned the contract, after which it was taken possession of by the Town Trustees, although never paid for either by Mr. MacQuiddy or the city of Sonoma, who took possession of the uncompleted building and entered into a new contract with Mr. Newman to complete the same and at the same time placing at his disposal all the material on the ground. The Steiger Company also sues for damages in the amount of \$625.

The attorneys for the plaintiff are Col. J. W. Oates of Santa Rosa and Bishop & Hoefler of San Francisco.

Mix This at Home.

The following simple home-made mixture is said to readily relieve and overcome any form of Rheumatism by forcing the kidneys to filter from the blood and system all the uric acid and poisonous waste matter, relieving at once such symptoms as backache, weak kidneys and bladder and blood diseases.

Try it, as it doesn't cost much to make, and is said to be absolutely harmless to the stomach.

Get the following ingredients from any good pharmacy: Fluid Extract of Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle, and take a teaspoonful after each meal and again at bedtime.

This simple mixture is said to give prompt relief, and there are very few cases of Rheumatism and Kidney troubles it will fail to cure permanently.

These are all harmless, everyday drugs, and your druggist should keep them in the prescription department; if not, have him order them from the wholesale drug houses for you, rather than fail to use this, if you are afflicted.

S. T. Daken, the Landscape
Artist, Will Exhibit Here
Some Fine Paintings.

Next Monday, in the parlors of the City Hotel, Mr. S. T. Daken, the landscape artist, will place upon exhibition one of the finest collections of oil paintings ever seen north of San Francisco. The exhibition will continue until the following Monday, and as no admission fee is charged there can be no excuse for the lovers of art to view these magnificent paintings from the brush and the knife of Mr. Daken.

The Santa Rosa Republican in speaking of Mr. Daken's recent exhibit of paintings in that city, says: "These paintings are the work of S. T. Daken, the California landscape artist, who has made a special study of scenes in this State, and especially in Sonoma county. He was for a time a student of H. R. Ditz, the celebrated marine artist, who tried to persuade Mr. Daken to follow marine painting, so good was his effort in water effects. However, his liking was so strong for landscape painting that he decided to locate for a time in Glen Ellen, and since the disaster of April 18th he has been a resident of the Sonoma county town and there has spent his time in preparing some of the prettiest scenes ever shown here."

Mr. Daken's exhibit in this place will exceed that made in Santa Rosa and will number twenty-seven pieces, most of them being Sonoma Valley scenes. These paintings range in price from \$20 to \$300, and the people of Sonoma Valley are cordially invited to drop into the parlors of the City Hotel at any time and see the collection.

THE AWFUL BIG CATS

They Are the Most Dangerous of All Wild Animals.

TIGERS MERCILESS DEMONS.

While Easy to Handle and Quick to Learn, When Aroused They Are Fiends Incarnate—Panthers, Jaguars and Leopards Are Treacherous.

"Of all wild animals," writes A. W. Raker in Appleton's Magazine, "including the rhinoceros with his frightful charge and his dreadful horn, including the rogue elephant with his unbounded strength, his marvelous cunning and his villainous trunk, and including that gray shaggy rogue, the American grizzly, with his rib crushing hug, his ponderous paw and his hot, reeking man, no beast is as dangerous to man as any one of the big cats."

"For, besides the mouth provided with teeth that can crunch through the leg bone of a man as if it were a pipestem, each foot is provided with five pointed claws, pointed like needles and from three to four and a half inches long. As the beast strikes with these he draws the claws in, keeping hold of muscles and tendons and ligaments and tearing them out of the flesh until they snap like rubber bands, so that unless the victim succumbs it will be months and months and sometimes years and years before he can regain use of an injured member."

"But not only do these talons tear viciously. Curious to say, although the claws are pointed and the edges are dull as the tip of a little finger, a cut with one of these looks like the cut of a dagger. On one occasion in Bostock's trained wild animal show a Bengal tigress made a sweep at a European black bear, cut through the six inch thick fur of the bear and cut three parallel strips two feet long and six inches deep and clean as razor slashes to the very backbone of the beast."

"As a matter of fact, the dexterity of one of these big cats' claws is astounding. Here is a curious accident which happened to Bostock when he undertook personally to break in a 'rogue' tiger that had 'gone bad.' Provided with sole leather guards worn next the skin and covering the fleshy part of the leg from the groin to the knee, he entered the arena with the bad one and was attacked and wounded. His trousers were slashed in one spot just big enough to admit a single claw, an undergarment showed two similar cuts, while the flesh was torn an inch deep in four places three inches long."

"Still another instance showing the marvelous quickness of claw happened in the same show when the trainer in charge of a leopard group was raved in the nick of time from a rogue which had tried to pull him down by climbing up on him. The arm of this man showed between wrist and elbow alone twenty-six wounds varying from a quarter of an inch deep and an inch long to one inch deep and four inches long."

"Of all the big cats, including that magnificent jungle maned monarch of night, the lion, and including those beautifully spotted orange and black villains, the jaguar and the leopard, and their cousin, that noiseless, lightning swift traitor, the panther, trainers prefer to handle the tiger."

"This is contrary to the popular belief which credits the tiger as the most bloodthirsty of all wild beasts. The tiger is, however, the quickest to learn and the easiest to handle. Whereas the lion always remains a nervous, high strung brute, after a time a lion becomes phlegmatic and lazy and requires urging, which is apt to cause trouble."

"Whereas the tiger is a demon incarnate and merciless once aroused, he is at least an honest fighter that gives ample warning when about to attack and only as a rare exception attacks a man from behind, unlike the jaguar, the leopard and the panther, which are treacherous and almost invariably attack when a back is turned."

"Again, of all this dangerous family the nature of the tiger comes nearest that of an ordinary house cat, and, always comparatively, the tiger it is that is most appreciative once the master has succeeded in establishing his truce. Then, like the domestic cat, he likes to brush up against the person of his trainer, loves to have his back rubbed and groomed and the top of his head scratched to soothe the everlasting itch between the ears, while he emits purrs of satisfaction, forgetting that the least unforeseen accident may arouse murderous instincts that would in a twinkling convert the friendly meeting into a shambles."

Proved It.

Rich Uncle—You might as well stop mooning about Miss Beauty. She hasn't been in love with you after all. She's been after the money she thought you would inherit from me. Nephew—Impossible! What makes you think so? Rich Uncle—Have proposed to her myself and been accepted.—Tit-Bits.

His Reformation.
"Yes," said the reformed cannibal chief, "I used to eat every missionary that came out here."
"That was before you got religion, eh?" queried the new missionary.

Why.

Danger in Linoleum Making.
In the manufacture of linoleum no unprotected lights are allowed in the mixing department. This is on account of the great danger of exploding the cork dust floating in the air. An additional danger in linoleum making is that the mixture of cement and cork dust has the unpleasant property of spontaneously igniting if left in a warm place. It is therefore customary to mix the material a sackful at a time in order to reduce the risks of an explosion.

Grip Quickly Knocked Out
"Some time ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of a gripe with all its miserable symptoms." Says Mrs. J. S. Eggleston of Maple Landing, Iowa, "Knees and joints aching, muscles cramped, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, and the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip. Sold by L. S. Rheumatism Makes Life Miserable.
A happy home is the most valuable possession that is within the reach of a man and kind, but you cannot enjoy its comforts if you are suffering from rheumatism. You throw aside business cares when you enter your home and you can be relieved from those rheumatic pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continued use for a short time will bring about a permanent cure. For sale by L. S. Simmon.

The Outdoor Boy.
Let the boy learn to hit the bright spot with a rifle, and if you come he can hit the button on the coat of an enemy the first shot and does not have to be taught to shoot over again after he enlists. If he is familiar with guns, boats, water and the wild woods, he will be handy anywhere, and you can't lose him. Any boy who has got a father who won't do the right thing by him and give him a chance to love the woods and the water and the free clean air that God serves free, when you get far enough away from man's city can come along with me some time, and I will show him how to have the time of his life.—Outer's Book.

Good Judgment
is the essential characteristic of men and women. Invaluable to good business men and necessary to housewives. A woman shows good judgment when she buys White's Cream Vermifuge for her baby. The best cream medicine ever offered to mothers. Many indeed are the sensible mothers, who write expressing their gratitude for the good health of their children, which they owe to the use of White's Vermifuge. For sale by L. S. Simmon.

The Daily Call and Index-Tribune \$9 per year for both papers.
